thousands of customers.

## Your extreme makeover for document capture and management

KODAK Capture Pro Software lets you quckly convert forms, invoices, patient records and other critical business documents to high-quality images. Efficiently capture critical index data, then automatically deliver it all to databases and applications.

## Intelligent Quality Control (QC): When accuracy and readability matter

- Adjusts image quality even when original document is unavailable for improved data capture accuracy
- Reduces cost of error correction through better downstream recognition
- Cuts image review time by intelligently selecting questionable images

## Comprehensive integration with MICROSOFT SHAREPOINT and other ECM systems

Imports index configuration from SHAREPOINT from a wide array of column types. Easily standardize configurations across multiple users to eliminate concerns about processing or capturing the right data to feed a process.
