Immersive Elegance with Premium Design

Enhance your environment with the 32” NSD-3203 FHD Digital Signage Display. Featuring a premium design, complete with an even bezel and slim profile, it exudes a sleek and unified appearance. Seamlessly integrating into any setting, this display delivers eye-catching messages amidst premium decor.

Quick Arrange Layout and Scheduling from USB Drive

Quickly create and schedule engaging displays with our USB Media Player, offering various layouts, auto play options, and support for up to five playlists. Achieve flexibility with Scale or Full picture style, delivering messages effectively and attractively with minimal setup.

Web Exploration on Your Display

Utilise the built-in web browser for seamless interaction with online content. Simplify content management by scheduling and importing up to five URLs via a TXT file. Access and play online content directly from your display, keeping it fresh and engaging with real-time updates such as news feeds, social media, weather forecasts, and promotions.

Wireless Content Sharing Made Easy

No apps, no hassle—just instant, dynamic content sharing to keep your audience informed and captivated. Our hassle-free wireless screen sharing tool effortlessly broadcasts real-time updates, promotions, and announcements directly to digital signage using just a Wi-Fi connection.

Customise Your Experience with Preferred Software Integration

Our platform, pre-installed with NoviSign digital signage software, provides one-stop solution to build up your dynamic content right away. You can also install your preferred or existing third-party software to meet your specific needs.

Visual Brilliance for Exquisite Screen Presentations

Patented ANTI-BURN-IN™ Technology

To combat the effects of traditional LCD burn-in or ghosting, AG Neovo utilises its patented Anti-Burn-in™ Technology to prevent image burn-in and ensure an extended lifespan for displays.

500 nits Brightness

With its impressive 500 nit brightness, this display guarantees vivid and easily discernible images and messages, making it suitable for diverse settings, including shopping malls, lobbies, control rooms, and beyond.

Anti-Glare

Featuring non-glare panels with a 25% haze, this display uniformly diffuses light across the screen, preserving the vibrancy and accuracy of the content for an optimal viewing experience.

Flexible Display Orientations

Our displays seamlessly support both landscape and portrait orientations, providing flexibility for diverse applications.

Efficient Connectivity and Management

NSD-3203, with an all-in-one Android 9.0 platform and 16GB storage capacity, offers versatile features for captivating content presentation.

Built-in Wi-Fi 5 and Bluetooth

Enabling seamless connectivity, enhanced communication, and efficient data transfer.

Excellent Remote Control Experience By Smart Device

Neovo Controller ensures compatibility, consolidates commands, and offers an intuitive interface for a personalized and versatile remote management experience on iOS, Android, and Windows.

RS232 and LAN Control for Efficient Management

RS232 and LAN controls offer seamless and efficient management of your displays, providing easy remote control and monitoring capabilities.

Reliable Continuity with FailOver Technology

Experience uninterrupted performance with FailOver, ensuring seamless content display by automatically switching to a backup source in case of primary input failure.

Optimised Power Efficiency

Our NSD-series consume less power in power on, standby and sleep modes, ensuring energy efficiency and cost savings.

Centralised Control

Integrate the display into your managed network for streamlined control using I/O commands, accompanied by 3 HDMI inputs for enhanced connectivity.
