R1,701

Step into immersive gaming with the Lenovo Legion H320 Gaming Headset.
Designed for PC gamers who value performance and comfort, the H320 delivers powerful sound, clear communication, and a streamlined user experience - perfect for both gaming and everyday use.
Equipped with large 53mm dynamic drivers, the headset reproduces rich, detailed audio across a wide frequency range, enhancing every in-game moment from subtle footsteps to explosive action.
With a convenient in-line controller, users can easily switch between Virtual 7.1 surround sound for an immersive gaming edge and Hi-Res audio mode for a more refined listening experience.
The unidirectional microphone ensures focused voice pickup and effective noise reduction, keeping
