rate and IPS technology, it delivers smooth, clear visuals essential for work and entertainment. Boasting a sleek, frameless design and multiple connectivity options, including DisplayPort, HDMI, and VGA, the LH2404 stands out as the ideal choice for office workers seeking performance, comfort, and connectivity. Experience enhanced productivity and well-being with eye-friendly features seamlessly integrated into every aspect of your work environment.

Height Adjustable

Discover ergonomic comfort with our height-adjustable stand. Effortlessly adjust your monitor to the perfect height, reducing neck strain and enhancing productivity.

Pivot

Our pivot functionality allows for seamless transition between landscape and portrait orientations. Ideal for designers, programmers, and anyone who needs a flexible viewing approach.

Swivel

Experience the ease of sharing your screen with others. Our swivel feature offers superior flexibility, making it perfect for collaborative environments and multi-angle viewing.

Tilt

Reduce glare and find your ideal viewing angle with our tilt functionality. Tailor your monitor’s position to suit your posture and lighting, ensuring comfort and clarity during long hours of use.

Ensuring Eye Comfort

Equipped with flicker-free and low blue light technology, aiding in reducing eye fatigue and supporting prolonged comfortable viewing for office tasks.

Flicker Free

Experience less eye fatigue with our flicker-free technology. It reduces screen flicker, offering a smoother visual experience for longer, more comfortable sessions.

Low Blue Light

Our monitor reduces harmful blue light through hardware adjustments, maintaining vibrant color accuracy while protecting your eyes, allowing for extended use without discomfort.

Crisp, Clear, and Detailed

Immerse yourself in the stunning clarity of Full HD. Our 1080p resolution ensures vibrant colors and sharp details, making every viewing experience more realistic and engaging.

Exceptional Color and Wide Viewing Angles

With advanced IPS technology, enjoy consistent, accurate colors from all viewing angles. It’s perfect for professional design, photography, and for sharing your screen with others.

Ultra-Smooth, Seamless Visuals

Experience the ultimate in smooth, seamless visuals with our 120Hz monitor featuring FreeSync technology. Perfect for gaming and multimedia, enjoy fluid motion and sharp images without lag, tearing, or blur.

Versatile Connectivity

Equipped with multiple input options – HDMI, DisplayPort, and VGA – our monitor ensures compatibility with a wide range of devices.
