

SYNOLOGY FS200T 6-Bay Flashstation Intel Celeron J4125 4GB DDR4 Non ECC 2xUSB 3.2 Gen 1 Port

Model: FS200T

Manufacturer: SYNOLOGY

EAN: 4711174726356

Product Code: 1065145

R23,495

The Synology FlashStation FS200T is designed to enhance network storage solutions with its SSD compatibility and efficient performance capabilities. Featuring a sleek chassis with built-in status LEDs and an LED panel, this storage device seamlessly accommodates your organization's needs while ensuring optimal operational conditions, with a temperature range of 0°C to 40°C and a humidity range of 8 - 80% RH. Its environment-friendly sound emission level of just 21.3 dBA makes it ideal for office use.

With a robust configuration of six hot-swap 2.5-inch expansion bays, the FS200T supports effortless upgrades and maintenance. Connectivity is simplified with options such as Gigabit Ethernet and 2.5 Gigabit Ethernet interfaces, alongside USB 3.1 Gen 1. It is compatible with various network protocols
