

Goodram UUN2 USB flash drive 64 GB USB Type-A 2.0 Silver

Model: UUN2-0640S0R11

Manufacturer: GOODRAM

EAN: 5908267935163

Product Code: 1223561

R993

The subtle but very durable UUN2 housing is the perfect solution for those looking for an elegant flash drive. UUN2 is a steel flash drive with a built-in keyloop, which makes it easy to attach it to keys, lanyard or pendant. One of the additional advantages is the capless design, so users never have to worry about lost parts again.

An Elegant flash drive

UUN2 stands out with its jewelry-like appearance and is a perfect solution for people who appreciate the original design. The simple housing shape with two types of material finish and key loop will attract many users. Steel silver housing and capless design ensures safe use of the flash drive in all situations.

Increased resistance with steel housing

Rugged UUN2 flash drive is appreciated by many users. UUN2’s rugged steel housing sports an original and timeless design and guarantees greater resistance to damage while protecting the stored data. Capless design will make you enjoy the complete look and functionality of this flash drive for a long time.

Endurance for the most active

UUN2 flash drive uses the COB (chip on board) technology – silicon memory chips and controller were mounted on a single printed circuit, and covered with special resin. Thanks to this, apart from small dimensions and weight, this flash drive gained an additional advantage: it is waterproof and shock-proof, which translates to even greater comfort of use. This makes this USB flash drive dedicated to active users who value the practical values of removable storage.
