The American Power Conversion™ Corporation was started in a garage in 1981. Through years of innovation, we’ve grown to be a flagship brand of Schneider Electric™, and the industry leader in physical infrastructure and software solutions.

Why APC?

Any vendor can simply sell you products. With us, you get comprehensive tools and resources, a robust partner network, and an unparalleled reputation for excellence.

Infrastructure solutions for home and office

From battery backups that safeguard against outages at home, to full-scale data center infrastructure, our offers can help your home and business become more efficient, reliable, and connected.
