R1,431

COLMI L28 Smart Watch (silver-purple + purple leather strap)

The COLMI L28 smartwatch with a leather strap impresses with its luxurious finish, compact form, and exceptionally slim profile, measuring just 7.9 mm thick. The 41.5 x 48 mm case fits perfectly on a woman's wrist, combining style with practicality. This elegant watch offers features that support health, activity, and daily organization—from Bluetooth calls, heart rate and sleep monitoring, to smart notifications and over 100 sports modes. For women who want to wear technology in a beautiful form.

Frameless AMOLED screen and always-on display

The watch is equipped with a 1.32-inch AMOLED screen with a resolution of 466x466 pixels, providing exceptional sharpness and color intensity. The curved, frameless display blends perfectly with the elegant case and allows for intuitive operation. With the Always-on Display feature, the user can check the time at any moment without having to activate the screen. The watch also offers a wide selection of watch faces — over 100 styles — from classic to modern, with the ability to customize the interface to suit individual preferences.

24/7 health and wellness support

The COLMI L28 is more than just a watch — it's your everyday health assistant. The VC30F optical heart rate sensor monitors your pulse 24/7 and sends vibration alerts when it detects abnormalities. Advanced blood oxygen (SpO_2) measurement allows you to monitor your oxygen levels, even while you sleep. The sleep analysis function, which divides sleep into REM, light, and deep phases, allows you to better understand the quality of your night's rest. The watch also supports women's health by offering a function to track your menstrual cycle, ovulation, and fertile days.

AI assistant always at hand

The COLMI L28 is not just a classic smartwatch — it's a personal AI assistant on your wrist. With its built-in GPT function, the watch can help you organize your day, answer questions, and assist with everyday challenges, acting as an intelligent conversation partner. In addition, the AI Watchface feature allows you to create personalized watch faces based on your preferences and style. It's a solution that combines creativity, technology, and convenience in one elegant device.

Physical activity under full control

COLMI L28 supports over 100 sports modes, including running, cycling, jumping rope, yoga, and golf. Each activity is closely monitored—the device tracks the duration of your workout, heart rate, and calories burned. Regardless of your level of advancement, the smartwatch provides valuable data that motivates you to continue and helps you achieve your training goals.

Communication and smart features at any time

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. shop.cssi.co.za | sales@cssi.co.za | +27 (11)541-9950

This elegant model allows you to make phone calls directly from your wrist — thanks to Bluetooth 5.2 and a built-in microphone and speaker with HD Voice. Users can answer and reject calls, view their contact book, and review their call history. The watch syncs notifications from apps such as WhatsApp, SMS, and Facebook, and the smart voice assistant allows you to control functions and get information without touching the screen.

Refined details that make a difference

The COLMI L28 with a leather strap weighs 32 grams, giving it a distinct feeling of solidity while maintaining comfort of use. With IP68 certification, the watch is resistant to splashes and contact with water in everyday situations. The 200 mAh battery provides up to 7 days of operation on a single charge, and a full charge takes about two hours thanks to the magnetic connector.

Included

- COLMI L28 watch
- Magnetic charging cable
- Silicone and leather strap
- User manual
