WD Red SSD SN700 NVMe 2TB M.2 2280 PCIe Gen3 8Gb/s internal drive for NAS devices POWERED BY SANDISK

Model: WDS200T1R0C-68BDK0

Manufacturer: SANDISK

EAN: 718037891330

Product Code: 21025

R9,664

The WD Red SN700 is designed to deliver substantial performance for users looking for a reliable and efficient solid-state drive. With a capacity of 2 TB, this internal hard drive ensures ample space for multimedia files, applications, and more. It features an internal data rate of 3400 MBps, making it suitable for tasks that require quick data access and high transfer speeds. The drive boasts endurance of 2500 TB, allowing 24x7 continuous operation for demanding environments. This drive operates within broad temperature ranges, from 0°C to 70°C for operational use and enduring extremes of -55°C to 85°C for storage. Its M.2 2280 form factor and PCI Express 3.0 x4 (NVMe) interface facilitate efficient integration into modern systems. The WD Red SN700 is a choice for
