Product Code: 96926

R9,160

Slim design. Stunning performance.

Introducing QMC, the slimmest display in the Samsung UHD Signage lineup. It brings elegance to businesses while maximizing space. Its enhanced internal solutions and intuitive home screen UX makes it easy to use. Businesses in various verticals can achieve growth with QMC’s efficiency and design innovation.

Maximum impact in minimum space

Ultra Slim Depth

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The QMC's ultra-slim 28.5 mm depth makes it the thinnest option in Samsung’s UHD series. It is compatible with a Slim Fit Wall Mount, which allows you to install it neatly and easily in any location. QMC optimizes space with its sleek design that blends seamlessly into your business environment.

Clean visuals in landscape or portrait mode

Even Bezel

The bezels are consistent and even on all four sides of the display, with the same thickness and dimensions. The new even bezel design prevents any visual issues from arising when the display is adjusted to portrait mode.

Secure and even mounting

Centered VESA Holes

The central positioning of the VESA holes on the back of the display evenly distribute its weight for secure mounting. With the VESA holes now shifted to the center, users can adjust the display to portrait mode without the display tilting unintentionally.

Lifelike colour

Dynamic Crystal Color

Experience immersive pictures with one billion shades of colour. Dynamic Crystal Color delivers true-to-life variations, allowing customers to see every subtlety.

View lifelike shades of colour in powerful 4K

Quantum Processor Lite 4K

Samsung’s proprietary video processing technology enhances every piece of content for clarity and consistency. Intelligent UHD upscaling technology, powered by Samsung’s Quantum Processor Lite 4K, elevates lower-resolution video to UHD, providing a professional picture quality.

Ensure critical information is always visible

Non-glare

QMC displays feature reliable, non-glare panels that provide better visibility from all angles, any time of the day. The non-glare display enables businesses to deliver accurate information in critical locations, like airports and train stations.

Connect with convenience

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Home UI

QMC boasts greater usability with an upgraded home screen UI. Popular categories like Favorites, Sources and Settings are displayed on the same screen for convenient availability. The Favorites folder grants users quick, easy access to frequently used features in a single click.

Collaborate between screens with wire-free speed

Smartview+

SmartView+ enables wireless screen sharing without cable connections, ensuring easy collaboration. Users can now enable the screen sharing function at the start of a meeting, allowing the meeting admin to quickly switch between screens with one click.

Simplified calibration between screens with mobile app

Smart Calibration

Experience complete brand consistency across every display in every location. Using the Samsung mobile app, Smart Calibration allows for every display to be calibrated correctly, showcasing brand logos and other collateral in the exact colours required.

Enhance professional environments with expert tools

Professional Modes

Built-in professional modes enable more possibilities in specific verticals. Director Mode minimizes post-processing, aligning content to the director’s original intention. Medical teams can simulate medical images such as X-rays with DICOM Simulation Mode, meeting DICOM's full grayscale standards.

Change the way to manage your display

Samsung VXT

Samsung VXT CMS is a cloud-based solution that brings together content management and remote device management capabilities, allowing users to remotely manage hardware settings and troubleshoot issues while effortlessly creating and deploying content with no previous training needed.

Building towards a sustainable future, today

Energy Star / EPEAT / TÜV Rheinland Carbon Footprint

Samsung is making diverse efforts to reduce our environmental impact in smart signage. As a result,
