Adapted to various shooting scenarios and environments, the fully equipped PVS7 makes shooting more flexible and secure.

Anti-Reflective Touchscreen

Anti-reflective coating to enhance viewing clarity, with reflectance reduced to 5%. Additionally, it features a 6H screen hardness level for enhanced resistance and durability.

Drop-Proof Protection

Reinforced edges and 4.9ft (1.5m)* drop protection validated through drop testing. (*The results may vary depending on the specific tests conducted)

Protection Cage

Protection cage for external devices to adapt to various shooting scenarios for enhanced flexibility and agility. (You can still install the “camera” without the protection cage)

Two-Way Shading Hood

The two-way hood (horizontal/vertical) features an anti-reflective panel to combat environmental reflections and ensure a clear screen view. (The shading hood must be used with the protection cage)

Accurate Colours Mean Efficiency

See better with a superior display. BenQ provides Rec.709 colour gamut and out-of-the-box colour accuracy. Experience uniform and reliable colour presentation across various displays, making shooting and post-production efficient.
Preview in Style
The PVS7 supports uploading multiple LUT files through the microSD card. You can preview videos in different styles, ensuring a consistent creative perspective from shooting to post-production.

Compatible with Your Cameras

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. With support for HDMI and SDI in/out and an IO groove design to protect source connectors, you will have stable latency-free video transmission without weakened signals over long distances.

No Noise, No Overheating, Low Power Draw

Fan-less design with optimal heat dissipation channels eliminates bothersome noise during recording, which is suitable for capturing ASMR videos with crystal-clear audio. Enjoy long-lasting, low-power usage* provided by our stable and durable monitors.

Colours You Can Trust

BenQ AQCOLOR technology delivers 'Accurate Reproduction.' This translates to the display of colour precisely as it is intended to appear. Led by a colour expert, the BenQ team participated in the ICC* and ISO** to establish colour-related standards and implementation guidelines.

BenQ’s Green Commitment: A Vision of Sustainability

BenQ prioritizes eco-friendly practices in our product development, underlining our commitment to sustainability. BenQ Professional Monitors incorporate eco-friendly technology, recycled materials, and energy-efficient design.

85% PCR

The housing of monitors is made with 85% PCR (Post-Consumer Recycled) materials, contributing to eco-friendly production.

Recyclable Packing

We package our monitors in fully recyclable cardboard for minimal environmental impact.

Auto Power Off

Conserves energy by automatically shutting down the screen after 10, 20, or 30 minutes of inactivity, promoting sustainability.
