BenQ HDRi: HDR with More Uniform Color

BenQ’s exclusive HDRi uses adaptive intelligence to detect ambient light and automatically adjust screen brightness for optimal viewing. This innovation ensures clear visuals and a highly immersive experience. GameHDRi boosts reds and brightness for vivid gaming, while CinemaHDRi fine-tunes colors and contrast for lifelike, consistent viewing.

BenQ High Pixel Contrast: Deeper Blacks, Sharper Details

BenQ’s exclusive Local Contrast intelligently adjusts contrast based on the displayed content without affecting other areas of the image. This dynamic adjustment brings out every detail, delivering an exceptional visual experience. Enjoy the perfect blend of High Pixel Contrast and HDRi content for stunning, captivating visuals without losing detail in dark areas!

200Hz Smooth Motion for an Enhanced Viewing Experience

200Hz refresh rate quickly adapts to on-screen changes, providing a clearer and smoother visual experience. This enhances eye comfort, making it ideal for both reading web pages and enjoying games with minimal motional blur.
