The ATHAN03B is a comfortable Stereo Sound Gaming Headset for use at home or in the office, providing excellent sound quality for listening to music, playing games, internet telephony (VOIP), chatting and video conferencing. They are designed for long-term comfort and all-day wear, with an adjustable headband and soft-cushioned, over-ear cups. The design reduces background noise for a fully-immersed experience and also enhances bass, while a top quality 50mm speaker punches out true, high-fidelity sound with great audio detail. RGB LED lights create a ‘breathing’ effect, pulsating in time to the music or audio being played. The headphones work across multiple platforms, making them an excellent option for PC use, gaming, or simply listening to music.
