Upgrade your Internet to reach further

The DAP-X1860 enables you to extend your existing Wi-Fi to get an enormous coverage of up to 185 sqm, delivering next-gen Wi-Fi 6 speeds of up to 1.8 Gbps throughout every corner of your home.

OFDMA and MU-MIMO technology ensures your Internet bandwidth is utilised efficiently - so your devices can stay connected at the highest speeds possible, without putting a strain on your network.

Build a better network with D-Link Wi-Fi Mesh

Pair the DAP-X1860 with a compatible D-Link Wi-Fi Mesh router1 to create a whole-home mesh network that allows you to enjoy staying connected seamlessly throughout your entire home. What's more, with support for Wi-Fi EasyMesh™ and the 802.11k/v standard for mesh smart roaming, you can use it with an even wider choice of compatible routers and extenders.

LED Wi-Fi Signal Strength Indicator

The visual Wi-Fi signal indicator allows you to see where the strongest and weakest Wi-Fi signal spots are around your home, helping you to identify the best possible location to place the extender for optimal network performance.

Easy connectivity

The DAP-X1860 is built to get you going immediately. Simply push the WPS on both the router and the Wi-Fi Extender and you're good to go.

In addition, the Wi-Fi extender also offers a Gigabit Ethernet port, so you can connect a wired device that needs Internet connectivity, such as a game console or a Smart TV.

Stay protected from online threats with the latest in Wi-Fi Encryption

The DAP-X1860 supports WPA3 - the latest version of the Wi-Fi Protected Access (WPA) protocol that encrypts user data and protects wireless networks from outside threats. WPA3 includes a new

protocol to verify authentication and secure your devices’ connections while further protecting your wireless network from attacks.

Easy setup, easy-to-use app

With the D-Link Wi-Fi app, you can set up and manage your DAP-X1860 straight from your smartphone or tablet.
