R3,151

4G video call

Keep in touch with your loved one by making instant 4G video. Receive preset text or voice messages while your child is on the go.

Real-time tracking

It takes a quick glance to know your child's whereabouts. Set the safe zone to get an alert when the child is outside. Share a real-time location and monitor tracking history on your smartphone.

2MP high definition camera

Inspire your child to explore creativity with 2MP high-def camera. Vivid photos and clearly recorded videos saved on an 4GB card turn into a child's daily stories to share.

7-day battery life

An 850mAh battery has a standby time of up to 1 week. It's charged in 2 hours with a micro USB 2.0 cable to run steadily up to 2 days under high 4G performance.

Expanded 1.54" display

The 1.54-inch high-res display elevates your child's enjoyment of making 4G video calls. Have more family moments while sharing joyful photos and playful videos.

Waterproofed with IP65

MOVETIME Family Watch 2 is intentionally designed to be protected from sudden liquid spillages and undesired dust with a carefully built IP65 safety technology.

Kid's social platform

A dedicated social platform inspires your child to make new friends easier thanks to Bluetooth connection.

A Sticker camera for selfies

Let your child improvise by using unique stickers. Receive your child's selfies with unique stickers with fun turning into the highlight of the day.
