

D-Link DGS-1210-10MP Managed L2 Gigabit Ethernet (10/100/1000) Power over Ethernet (PoE) Black, Grey

Model: DGS-1210-10MP/E

Manufacturer: D-LINK

EAN: 790069467714

Product Code: 412945

R5,526

Static Routing

Route Layer 3 traffic between switches, even if they're segmented in VLANs.

Fibre Uplink Ports

Connect to other areas of your network at fibre-optic Gigabit speeds, and reach even further distances.

Surveillance Mode Interface

D-Link’s exclusive, easy-to-use Surveillance Mode interface gives you a snapshot of your security topology in an instant.

PoE Capable
Up to 370 W PoE output per switch

VLANs

Segment your network into VLANs.

Dual Image

Risk-free configuration testing.

Smart Managed with a Plus
With increased PoE output, advanced Layer 2 management features, and Layer 3 static routing , D-Link’s DGS-1210 Smart+ Managed Gigabit Switches provide a cost-efficient and flexible solution for expanding any business network.

Advanced Layer 2 Management with Layer 3 Static Routing

The DGS-1210 Smart+ family has advanced network management options, accessible via Compact CLI or the Web-based UI, that equip your business with network capabilities such as VLANs, multiple spanning tree protocol (MSTP), link aggregation (LACP), static routing, dual software images, and dual configuration files.

With powerful security features like IGMP snooping, access control lists, port security, and the unique D-Link Safeguard Engine that protects your network against malicious denial-of-service attacks from broadcast, multicast and unicast flooding, the DGS-1210 Smart+ family is a versatile solution for access-edge network environments.

Fibre Uplinks

Use fibre uplinks to connect across longer distances, like factory lines and university campuses, using lightweight, secure, and energy-efficient fibre optic cabling that’s immune to interference and which has access to higher throughput to protect the future demands of your business network.

PoE and PoE+, with budgets up to 370W

The DGS-1210 Smart+ Series includes a range of high power budget PoE-enabled switches for businesses looking to power larger deployments of VoIP phones, wireless access points or network cameras.

This product is compatible with Nuclias Connect

Nuclias Connect is our free remote network management software designed with network scalability, privacy and customisation in mind. It can be used either as an on-premises software management platform, or as a cloud solution.

Free Network Design and Management Software

D-Link’s free Network Assistant (DNA) displays all connected devices and speeds up the first time configuration. The free D-View 7 Network Management System comes with a license for 25 nodes and 2 probes and full access to the management tools. Optional upgrade licenses allow you to broaden your network and analysis.

Smart Energy-Saving Design

D-Link Green technology enables the DGS-1210 Smart+ series to save power without any sacrifices. The majority of the family utilises a fanless design, otherwise they feature a smart fan that powers on above a certain temperature. All come with advanced silicon technology which saves up to 73% of energy compared to a normal switch.

Surveillance Mode

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Select Surveillance Mode in the Web UI to take advantage of easy-to-use surveillance features which enable you to manage your surveillance network effortlessly. It automatically detects your security devices and segments them into a dedicated Auto Surveillance VLAN to handle video surveillance traffic securely and efficiently.

Free Next-Business-Day Service

Enjoy our free Next Business Day service, as standard, to replace faulty equipment quickly.

Our rapid-response technical support is designed to ensure businesses get the best support for their unique environment. Our extended warranty and enhanced service packages increase the lengths of warranties and further minimises downtime. You can even opt for our Same Business Day Service which guarantees the delivery of the replacement product within 4 hours of confirmation of product failure.
