R1,624

The lightweight MAESTRO 300 gaming headset delivers immersive audio with high-resolution 40mm neodymium drivers and clear voice capture via an unidirectional microphone, featuring universal plug-and-play compatibility. Its swiveling, tiltable ear cups, adjustable headband, and high-density memory foam earpads—available in breathable mesh or protein leather—ensure a comfortable fit for any head. The Nahimic for headset software offers unparalleled immersion with advanced 3D sound and audio tuning.

DEPTH OF SOUND

Discover a vivid soundscape with high-resolution 40mm neodymium drivers, meticulously optimized to deliver immersive audio playback. These drivers provide a broader frequency response for a lifelike audio experience* with clear highs, precise mids, and rich bass, capturing even the finest details in your favorite games, movies, or music.

NOISE-FREE CHAT, SIMPLY DETACHED

Say goodbye to distracting background noises during conversations, thanks to a high-quality, detachable cardioid microphone that features a pick-up pattern focusing on the wearer rather than everything around them. The mic boom is pliable, making it easy to tailor for any head shape. It delivers crystal-clear communication during intense gaming sessions and serves equally well for professional use. When it’s time to unwind with music or a movie, simply detach the microphone.

MESH CHILL OR LEATHER THRILL

Stay cool or get cozy with interchangeable earpads filled with high-density foam: choose between the breathable mesh for a fresh feel or the luxurious protein leather for added comfort. The breathable mesh earpads are designed to maximize airflow, keeping your ears cool and comfortable during extended gaming sessions. In contrast, the protein leather earpads offer a plush, premium feel and a slightly better seal to block out external noises for a more focused experience. This versatility allows you to customize your sound experience based on your preferences and the situation.

LIGHTWEIGHT COMFORT IN DETAIL

Incredibly lightweight at just 247g, the MAESTRO 300 prioritizes comfort with its thick head padding, swiveling 90-degree tiltable earcups, and a robust size adjustment mechanism that molds snugly to your head shape and rotates easily for storage and transport, all without compromising durability—making it ideal for marathon gaming sessions.

TOTAL CONTROL

Take control with the media buttons — mute the microphone, and fine-tune volume effortlessly.

PLUG & PLAY ACROSS PLATFORMS

Tailored for PC gaming, the MAESTRO 300 remains versatile across multiple platforms, seamlessly connecting with Mac, PlayStation, Nintendo Switch, and mobile devices. This convenience and adaptability make it an essential piece of equipment for any gaming enthusiast, guaranteeing an immersive and uninterrupted gaming experience across all your favorite platforms with relative ease.

NAHIMIC FOR HEADSET

Nahimic enhances headset audio with 3D surround sound for immersive experiences in gaming, music, and movies. It features noise reduction for clear voice communication, customizable equalizer settings, and improved situational awareness for competitive gaming. Additionally, it enriches bass and maintains consistent audio levels for better listening comfort and hearing protection.

MSI Center

Smarter, Faster, More Personal

MSI's exclusive MSI Center software helps you get the most out of your MSI peripheral products. Enable your experience in real-time with just a few clicks.
