hand position that significantly reduces wrist strain. This makes it the perfect companion for both long work days and intense gaming sessions. Enjoy precise control and a relaxed posture that allows you to maintain your performance and protect your health at all times.

Available in two versionsBlack and white

Choose the one that best suits your setup

Precision in Every Click

Equipped with the 8400DPI Pixart PAW3104PRO optical sensor, the MM-SK offers precise tracking and exceptional control in any situation, ideal for both fast-paced games and detailed tasks. Its HUANO mechanical switches ensure precise and responsive clicks, providing a quick response and long-lasting durability.

Chrome RGB Lighting

The MM-SK combines style and functionality with its RGB Chrome lighting, which adds a vibrant touch to your setup. Customize the colors to suit your mood or the intensity of the game and make your gaming space reflect your personality.

Cross-Platform Compatibility

Totally versatile and ready for anything, the MM-SK is compatible with Windows, Linux, Mac, PS4, PS5, XBOX ONE and XBOX SERIES XS. No matter your preferred platform, you'll enjoy a smooth, unrestricted experience.

Tri-Mode Connectivity

The MM-SK offers unparalleled flexibility with its tri-mode connectivity, allowing you to switch between devices and usage modes depending on your needs. Connect wirelessly via Bluetooth 5.1 or 2.4GHz for a cable-free experience, or use the wired connection for uninterrupted gaming sessions while charging your device.

9 Programmable Buttons

Take full control of your games and tasks with the MM-SK's 9 programmable buttons. Each button is fully customizable via the proprietary software, allowing you to create macros, assign functions, and adjust lighting and performance to your liking. Whether for quick in-game actions or to optimize workflows, the MM-SK adapts to your needs and maximizes your efficiency.
