The Allied Telesis AT-GS950/48 eco-friendly WebSmart switch upholds the Allied Telesis commitment to environmentally friendly processes and products. It is designed to minimize power consumption through the use of a high-efficiency power supply and a low power chipset.

The AT-GS950/48 features 48 x 10/100/1000T ports and an additional four Gigabit SFP combo ports. This WebSmart switch integrates the simplicity of unmanaged switches with the performance and reliability of managed switches to provide a cost-effective solution for users to integrate management at the edge of their network. The AT-GS950/48 provides key features using the simple web-based management function, such as port-based VLANs, IEEE 802.1p QoS, port trunking/link aggregation, port mirroring, priority queues, and IEEE 802.1x security support.
