The 4G LTE Mobile Router uses 4G/LTE-Advanced Category 6 cellular technology to share your 4G LTE Internet connection at blazing-fast speeds of up to 300 Mbps. Send large emails in a cafe while your friend streams their favorite shows, or share your connection at the airport so you and your coworkers can video conference with customers while waiting for your flight.

A Connection That Stays With You

Simply insert your data-enabled SIM card into the on-board slot to keep your friends and family connected. The 4G LTE Mobile Router creates a Wi-Fi network in your pocket that’s ideal for business trips, sharing Internet during a meeting, or for travel where mobility is a must.

Flexible and Convenient

Going online and staying there is super simple. The rechargeable 3000 mAh Lithium ion battery allows you to stay connected for long periods of time, and the built-in LCD display allows you to easily check up on your network's status.

Do More With Dual-Band

Using the latest Wireless AC technology, the 4G LTE Mobile Router operates on both the 2.4GHz and 5GHz wireless bands, resulting in less interference for your connected devices an a faster wireless connection.
