Product Code: 1022530

R67,464

KODAK Capture Pro Software

Quickly and accurately convert large volumes of paper documents into high-quality images your business can use.

Intelligent and Flexible Capture Technology That Grows with Your Business

In this digital era, paper-centric departments and processes waste time and money. Whether you're scanning a hundred or a hundred thousand pages, there are too many manual tasks. Data entry, naming and filing scanned images, and a litany of data checks all burn through costly manpower.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Eliminate these expensive manual tasks with KODAK Capture Pro Software.

Automatically turn volumes of scanned data into information that's ready to use. Your business processes will be faster, more accurate, and more cost effective.

Advanced Data Capture Software

Extract and Index with Confidence

Prevent post-scan rework with technology that automatically validates accurate capture. Intelligent Exception Processing immediately identifies missing information, such as a required signature. Intelligent Quality Control automatically flags questionable information for review.

Ensure Process Integrity

Securely capture and share information across your business. High-quality imaging delivers accurate data for your business applications. Share job setups across the organization to maintain standard indexing and routing rules. You can install KODAK Capture Pro Software on local workstations and use it without an internet connection.

Separate Documents Efficiently

Significantly reduce the time spent on manual document sorting prior to scanning, and automatically switch jobs and profiles while scanning large batches.

Automatic Data Routing

Send information directly to ECM systems, SharePoint, and Secure FTP. Automatically read barcodes, extract and index data, and get the information where it needs to be-quickly and accurately.

Optimized to Work Together

Unlike any other data capture software on the market, KODAK Capture Pro works seamlessly with scanners from many other manufacturers, so you can continue to get value from any existing hardware investments.
