Mouse pad made with recycled materials

Smooth, eco-friendly mouse pad made from natural and recycled materials

Mousepad with a mission

Made with natural rubber and recycled fabric for improved sustainability, the Boye Eco Mousepad is ready to make a positive impact on forests, communities, and your work.

Smooth operator

A soft top layer offers buttery smooth mouse movement, so you can glide right through your workday as efficiently as possible.

When surface-level’s a good thing

A medium-sized (250x210x3mm) surface area offers plenty of room to roam, while an anti-slip bottom provides stability to keep you in place.

It’s in the details

Anti-fray stitched edging provides stylish flair and increases durability, meaning this mousepad’s here to stay – and look good doing it.

Welcome to the (washing) machine

Mousepad need a bath? No problem – toss it in the washer, let it dry, then get back to work.

Mouse lover

The Boye mouspad doesn’t judge; it’s surface is designed to work with all mouse sensors – just lay it down and start mousing.
