only a single cable, to allow the simultaneous transmission of data, video and audio signals, all without quality loss.In addition, the connected device is charged directly by the monitor.When the monitor is connected to the Internet via a LAN cable,your notebook is also automatically connected to the network.

The 150mm height-adjustable stand ensures you can adjust the position of the screen to your liking, and the flicker-free panel with blue light reduction function reduces eye fatigue.

The height-adjustable base allows you to position the screen perfectly, ensuring optimal viewing comfort. Is good for your health and also increases productivity.
