EDLA-certified 8-core slot-in PC

Upgrade your display's computing power with the TEY1A EDLA-certified slot-in PC.

A familiar Google experience

The EDLA-certified TEY1A comes with the official Google Play Store plus core Google apps and widgets. The streamlined user interface features customizable screens, a permanent app dock, and Google Search.

Upgrade to the newest Android

BenQ Board users looking to advance their current operating system to the latest Android version can install the TEY1A, which gives them full access to the latest Android 13 features, functionalities,

and security patches.

Powerful processor

The TEY1A has a powerful 8-core processor composed of four Arm Cortex-A78 cores designed for heavy-duty processing and four Arm Cortex-A55 cores dedicated to background tasks. This blends power with efficiency.

Hassle-free management

The TEY1A comes with the BenQ Device Management Solution (DMS) that allows admins to remotely update their device firmware as well as simultaneously install, update, or uninstall applications on multiple slot-in PCs.

Multiple connection options

Users of the TEY1A get access to additional I/O ports for convenient data transfer. The slot-in PC features a USB-C 3.0 port, several USB-A ports, as well as HDMI and audio in and out for multimedia playback.

Vetted security

Since the TEY1A slot-in PC has the official Google Play Store, users can take advantage of Google Play Protect to safeguard their systems from potentially harmful applications.
