The R-Go Split Break keyboard is an ergonomic split keyboard with integrated break software. This keyboard encourages you to take regular breaks. This keeps your body's blood flowing, prevents strain and keeps you fit during your working day. The keyboard consists of two separate parts, which you can place in any arrangement you like. This splitting prevents a kink in the wrists while typing. Typing with straight wrists reduces muscle tension and prevents pinching of tendons and blood vessels. The built-in magnet allows you to turn the two separate parts of the keyboard into a

compact keyboard with one move. The compact size ensures that the mouse is always within reach. The light keystroke means minimal muscle tension is present while typing. The keyboard is flat, keeping your hands and wrists flat and relaxed while typing. LED colour signals in the keyboard indicate how healthy you are working and when it is time for a break. As you type, the light changes colour, like a traffic light. Green means ‘good job’, orange that it is time for a break, red that you have been working too long. Through these subtle colour signals, you receive feedback on your pause behaviour in a simple and positive way. This product works with the R-Go Break Software that won the Benelux Office Product Award 2021.
