ROBUST INDUSTRY PC WITH VESA/DIN-RAIL MOUNT

The Shuttle Edge PC SPCEL02WA System (based on SPCEL02) is a fanless IPC barebone in a robust 450 ml metal chassis and intended for DIN-Rail or VESA mounting. It is flexible in use and de-signed for maintenance-free 24/7 operation at ambient temperatures of up to 40°C. Inside there is an Intel Celeron "Elkhart Lake" processor with 8 GB RAM and 120 GB SSD and Windows 11 IoT operation system. The small housing offers an amazing variety of connections, including dual LAN, COM port and Digital I/O. This product is targeted at professional applications such as edge computing (IoT gateway), automation, digital signage, control, data logging and video surveillance.
