

NETGEAR GS316 Unmanaged L2 Gigabit Ethernet (10/100/1000) Black

Model: GS316-300EUS

Manufacturer: NETGEAR

EAN: 606449164251

Product Code: 1049108

R2,386

NETGEAR Unmanaged Essentials Switches offer an array of features that make them the ideal choice for providing easy, reliable, and affordable network connectivity for home and small offices.
With the convenience of plug-and-play operation, these unmanaged switches provide seamless connectivity to multiple devices without the need for complex configuration.
The switches are designed to be energyefficient, ensuring power savings while maintaining optimal network
performance.
The NETGEAR Unmanaged Essentials Switches are available in 5, 8, 16, 24, or 48 port models to meet the demands of a growing network. Instead of stacking multiple lower port models and your network grows, the higher port models ensure maximum scalability by reducing switch congestion. With their plug-and-play operation, energy-efficient technology, non-blocking switching architecture, and durable metal case, these switches offer a cost-effective and dependable solution for expanding
