

StarTech.com USB Crash Cart Adapter with File Transfer & Video Capture - TAA

Model: NOTECONS02

Manufacturer: STARTECH

EAN: 065030854382

Product Code: 1053299

R12,334

Portable KVM Console | VGA Video | 1920 x 1200 60Hz | Cables Included

The USB crash cart adapter gives you control of a headless system, turning your laptop into a portable crash cart for rack servers, PCs, ATMs, kiosks, and more.

Instant System Access

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Simply connect the laptop crash cart adapter to your computer using the included USB cable, then connect the integrated USB and VGA cables to your server for instant BIOS-level control. With no server-side software required, you can be up and running instantly.

*Please note that the mouse function may be limited in some BIOS/UEFI environments

Troubleshoot More Efficiently

With the flexible software interface, you can transfer files from your laptop to the server, capture videos for records or instructional purposes, take screenshots and scale the display window to full screen mode or smaller, with no scroll bars helping you to troubleshoot faster.

Self-Powered Reliability

Powered from the server-side USB connection, the KVM adapter doesn't require an AC outlet so you can connect to any PC or device that has a VGA and USB port, even if there's no power outlet available.

Take It Anywhere

This pocket-sized adapter features a compact design that easily fits inside your laptop bag and requires no additional accessories to connect, eliminating the need to lug around a large, awkward traditional crash cart to troubleshoot and service your systems.

StarTech.com offers a wide selection of high-quality KVM-related products to help you access your systems more efficiently without the expense and clutter of extra keyboards, mice and monitors.
