Use it to:

- Store and access files from a central, secure location;
- Automatically perform full-system backups on network connect PCs;
- Share a USB printer with network connected PCs and Macs.

Security that's built right in

You have plenty of things to worry about. Your file security shouldn't be one of them.

- Automatic data protection with options for RAID 1, 5,10;
- Hardware-based encryption keeps your files secure;
- Secure internet access to files with easy permissions and controls.

All the details that matter

The features you want. All in one place.

- Microsoft® Active directory 2003/2008 support;
- Multi-volume management;
- Functions as an FTP server for remote file access;
- Stream media to DLNA® compliant devices and computers running iTunes® software;
- Connect external drives, share a printer or utilize an uninterrupted power supply with the four USB 2.0 ports;
- Secure files with powerful hardware-based encryption;
- Event email notification;
- 3-year limited warranty.

Certified Drives

The following drives have been certified to work seamlessly with your BlackArmor NAS 400

- Barracuda® 5900RPM 2TB Internal Kit
- Barracuda® 7200RPM 1TB Internal Kit
- Barracuda® XT 7200RPM 2TB Internal Kit

BlackArmor NAS 400 storage server has no drives pre-installed. This allows you to customize the storage solution to best fit your business needs. Choose from an array of energy efficient, reliable Seagate drives certified to seamlessly integrate into the system. Begin by installing just one drive
