

CISCO Catalyst 9200L 24-port PoE+ 4 x 1G uplinks Meraki Persona

Model: C9200L-24P-4G-M

Manufacturer: CISCO

EAN: 889728662093

Product Code: 1053751

R63,487

The Cisco Meraki Catalyst 9200L-24P-4G switch is designed to deliver reliable performance in a compact, rack-mountable form factor. With a switching capacity of 56 Gbps and the ability to support up to 4094 VLANs, this switch provides robust connectivity options for networking needs. It includes 24 PoE+ ports, ideal for powering devices such as IP cameras and access points, enhancing network efficiency. The device offers extensive management capabilities, including support for SNMP and DHCP, making setup and maintenance straightforward and efficient. Built with durability in mind, the Cisco Meraki Catalyst is equipped with dual fans for optimal cooling and operates within a wide temperature range. The switch supports features such as IGMP snooping, port mirroring, and Quality of Service (QoS), ensuring effective handling of network traffic. With a maximum power budget of 370 W, it can accommodate high-demand devices while maintaining reliability and performance.
