

CISCO Catalyst 9200L 24-port PoE+ 4 x 10G uplinks Meraki Persona

Model: C9200L-24P-4X-M

Manufacturer: CISCO

Product Code: 1053753

R96,276

The Cisco Meraki Catalyst 9200L-24P-4X provides robust switching capabilities with a total capacity of 128 Gbps. It supports a maximum of 4094 VLANs, ensuring flexibility and scalability for various enterprise environments. This model includes 24 ports for 10/100/1000Base-T connections, enhanced by four additional uplink ports that support 1 Gigabit and 10 Gigabit SFP+. Equipped with 30 W PoE+ on every port, it delivers power to connected devices, simplifying infrastructure management.

Constructed with durability in mind, the Cisco Meraki Catalyst 9200L operates within a wide temperature range and maintains reliability even in challenging environments. It features built-in devices like dual fans for effective cooling, as well as management options through SNMP and various remote management protocols. The switch promotes smooth data traffic with features like Quality of Service (QoS) and IGMP snooping, while also ensuring network security with capabilities such as Role-Based Access Control (RBAC) and multi-factor authentication (MFA).
