

CISCO Catalyst 9200L 48-port Partial PoE+ 4 x 1G uplinks Meraki Persona

Model: C9200L-48PL-4G-M

Manufacturer: CISCO

Product Code: 1053756

R108,836

The Cisco Meraki Catalyst 9200L-48PL-4G is a versatile network switch designed to meet the needs of modern enterprises. With a robust capacity of up to 4094 VLANs and 8 QoS queues, it ensures seamless data flow and prioritization. This switch supports PoE+ with a power budget of 370 W, allowing connection of powered devices with ease and flexibility. Its management capabilities, featuring protocols such as SNMP and RADIUS, make remote monitoring and control simple and effective.

Built for reliability, the Cisco Meraki Catalyst 9200L-48PL-4G boasts a Mean Time Between Failures (MTBF) of 347,760 hours, ensuring reduced downtime and consistent performance. The unit includes 48 ports for 10/100/1000Base-T connections and 4 Gigabit SFP uplink ports, making it suitable for varied network setups. With its ability to operate in a wide range of temperatures and humidity levels, this switch adapts to different environmental conditions without compromising performance.
