

CISCO Catalyst 9200L 48-port PoE+ 4 x 10G uplinks Meraki Persona

Model: C9200L-48P-4X-M

Manufacturer: CISCO

Product Code: 1053758

R162,884

The Cisco Meraki Catalyst 9200L-48P-4X switch offers a solution for networking needs, featuring a capacity of up to 48 ports with Power over Ethernet Plus (PoE+) capabilities. This switch allows for a maximum of 4094 VLANs and utilizes Quality of Service (QoS) to prioritize critical network traffic, enhancing performance for essential applications. Built to endure various environmental conditions, it operates within temperatures from -5°C to 45°C and can be stored in environments between -20°C and 70°C, ensuring reliability under different circumstances. Designed for efficient management and security, the Catalyst model integrates functionalities such as DHCP server capabilities, Uni-Directional Link Detection, and multi-factor authentication. Its scalability allows users to stack up to eight units, providing flexibility for growing networks. With features like zero-touch provisioning and firmware upgrades, the Cisco Meraki Catalyst 9200L-48P-4X ensures seamless operation and continued performance, suitable for both small and large networking environments.
