

CISCO Catalyst 9200L 48-port Partial PoE+ 4 x 10G uplinks Meraki Persona

Model: C9200L-48PL-4X-M

Manufacturer: CISCO

Product Code: 1053759

R140,577

Cisco Meraki Catalyst 9200L-48PL-4X is designed for advanced networking with enhanced performance and flexibility. This switch supports up to 48 10/100/1000Base-T ports with Power over Ethernet (PoE+) capabilities, ensuring efficient power delivery for connected devices. With a switching capacity of 176 Gbps and a forwarding rate of 190 Mpps, it maintains speedy data flow, while supporting up to 4094 VLANs helps streamline network segmentation. Equipped with features such as Quality of Service (QoS), IGMP snooping, and dynamic DHCP capabilities, the Catalyst 9200 caters to the needs of modern enterprises. Remote management protocols like SNMP and Syslog allow for oversight, while layer 3 switching enables advanced routing protocols. The rack-mountable form factor and included mounting kit simplify integration into existing infrastructure.
