

CISCO Meraki MS130-24X Cloud Mgd. 18GE + 6x 2.5GE 370W PoE Switch configurable

Model: MS130-24X

Manufacturer: CISCO

Product Code: 1053765

R106,737

The Cisco Meraki MS130-24X is a versatile and powerful switch designed to meet the needs of modern networks. With a comprehensive range of ports including 18 1000Base-T, 6 2.5GBase-T, and 4 10GBase-X SFP+ ports, it offers flexible connectivity options for various devices. The switch is equipped with a 370 W PoE+ budget, allowing for direct power supply to PoE+ devices, which simplifies the network infrastructure by reducing the need for additional power sources. Cloud management capabilities enable easy setup, configuration, and maintenance, significantly reducing the complexity and costs associated with network deployment. The MS130-24X boasts a high switching capacity of 146 Gbps, ensuring smooth and efficient data transmission across the network. Built to operate in challenging environmental conditions, it maintains reliability and performance with an operating temperature range of 0 °C to 45 °C and humidity tolerance from 5 to 95%. This
