CISCO Meraki MS130-8X Cloud Mgd. 6GE + 2x 2.5GE 120W PoE Switch configurable

Model: MS130-8X

Manufacturer: CISCO

Product Code: 1053771

R43,631

The Cisco Meraki MS130-8X switch is engineered to meet the demands of modern networks, offering a powerful combination of efficiency, versatility, and advanced networking features. With a generous 120 W PoE budget, it can power multiple devices simultaneously, while its energy-efficient design minimizes power consumption during standby. The switch provides a broad range of connectivity options, including Gigabit and 2.5G ports, along with 10G SFP+ uplinks for high-speed network extensions.

Designed to perform in diverse environments, it operates reliably across a wide temperature range and humidity levels, with a fanless design for silent operation. Advanced features like 802.1x authentication, DHCP snooping, and Quality of Service (QoS) enhance network security and efficiency. Cloud management and zero-touch provisioning simplify setup and ongoing maintenance, making the MS130-8X a suitable solution for businesses seeking a scalable, easy-to-manage network infrastructure.
