Model: FC6-10-LV0VM-1118-02-12

Manufacturer: FORTINET

Product Code: 1055512

R167,925

FortiAI interprets security events, offering insights and advising on remedial actions, including suggestions for threat response and indicators for threat hunting. It informs analysts of malware characteristics, attacker profiles, and tactics. This is complemented by the ability to use natural language for complex database queries and report creation. User-friendly menu prompts in FortiAnalyzer facilitate easy access to these functions, simplifying security operations management.
