R1,078

The Lenovo Pro Plus 6050 is a wireless mouse designed for efficient performance and comfort. Equipped with precise optical movement detection technology and a resolution of 4000 DPI, this mouse ensures accuracy in every movement, suitable for both casual browsing and professional tasks. Its ergonomic design accommodates both right- and left-handed users, while the scrolling wheel offers 4-way navigation. The mouse features wireless connectivity through USB and Bluetooth 5.3, providing flexibility for any workspace.

Crafted from post-consumer recycled plastic, the Lenovo Pro Plus 6050 reflects a commitment to sustainability while maintaining compliance with international standards. With a lifespan of up to 5 million clicks, this mouse is built for reliability. It supports multiple operating conditions, functioning well in humidity ranges of 20-95% RH and temperatures from 0 to 40°C, ensuring it can withstand various environments. Whether in a home office or on-the-go, the Pro Plus 6050 delivers reliable performance and comfort.
