

LENOVO Self-Charging Bluetooth Keyboard U.S English with Euro symbol

Model: 4Y41R69494

Manufacturer: LENOVO

EAN: 195892118138

Product Code: 1056064

R1,779

The Lenovo keyboard combines style and functionality, making it a reliable companion for your workspace. With a self-charging capability, this wireless keyboard utilizes Bluetooth 5.1 for seamless connectivity, enabling users to enjoy a clutter-free environment. The keyboard features 108 island-style keys, including a numeric keypad, allowing for efficient data entry and precise control. Its adjustable height ensures a comfortable typing experience, adapting to different user preferences. The Lenovo keyboard is designed for durability, featuring a key lifespan of 10 million clicks, perfect for both casual users and heavy typists. Built with sustainability in mind, this keyboard incorporates 95% post-consumer recycled plastic in its construction, reflecting a commitment to environmental responsibility. Compatible with PCs, it operates effectively in various temperature ranges, making it suitable for diverse settings.
