

HP Hardware Hash Reporting Service

Model: AY230AA

Manufacturer: HP INC.

EAN:

Product Code: 1056093

R682

Request Hardware Hashes for your serial numbers via HP Device Registration Services inbox: device.registrationservices@hp.com.

Each request must include all needed information in a .CSV file to provide the HW Hashes including:
Serial numbers of all devices.

HP Sales order or Service PO number that confirms service was purchased in matching serial number quantities.

HP will reply with all matching HW Hashes for each serial number or confirming failure of some or all serial numbers to have a valid HW Hash. In the latter case, customers will need to re-submit valid serial numbers within two business days to complete the service or Service PO will be considered closed.

Service POs can only be submitted once per request and must match the quantity of serial numbers requested for the service requested.
