
HP EliteBook 8 G1i 14 Intel Core Ultra 5 226V 14inch WUXGA 16GB LPDDR5X 512GB SSD W11P 3YW

Model: D27K3AT#ABB

Manufacturer: HP INC.

Product Code: 1056570

R63,289

The HP EliteBook 8 G1i Next Gen Notebook is designed for professionals who need a balanced blend of performance, security, and mobility. It delivers responsive computing for everyday productivity with an Intel Core Ultra 5 processor and an Intel AI Boost neural processor that accelerates AI-assisted tasks and media enhancements. The notebook includes collaboration-ready audio and display features, USB-C power delivery with Sleep and Charge, and a spill-resistant keyboard with multi-touch clickpad to support efficient, comfortable use throughout the workday. Built to corporate standards, the system includes hardware- and firmware-level protections such as HP DriveLock, chassis intrusion detection, and multiple compliance certifications, while also meeting MIL-STD-810H testing for durability and ENERGY STAR certification for energy-efficient operation.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
