HPE Aruba Networking CX 6300M 24p SFP+ 1G/10G 4p SFP56 50G 2xFan PSU Bundle

Model: S5Z46A

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017792194

Product Code: 1057433

R563,109

The HPE Aruba Networking CX 6300M is a rack-mountable switch designed to meet the needs of modern networking environments. With a configuration of 24 ports, capable of 1 Gigabit and 10 Gigabit SFP+ connections, as well as 4 additional 50 Gigabit Ethernet SFP56 ports, it provides connectivity options for various applications. This switch features capabilities like Quality of Service (QoS) and support for Virtual Stacking Framework (VSF), ensuring efficient data handling and ease of management across your network infrastructure.

Equipped with 32 GB of flash memory and 8 GB of DDR4 SDRAM, the switch delivers performance with a switching capacity of 880 Gbps and a throughput of 654 Mpps. The device ensures reliability and security with multiple authentication methods, including RADIUS and TACACS+. The front to
