Zyxel NWA30BE 5012 Mbit/s White Power over Ethernet (PoE)

Model: NWA30BE

Manufacturer: ZYXEL

EAN: 4718937650347

Product Code: 1058153

R2,568

The power of WiFi 7, right at your desk.

The NWA30BE desktop-style wireless access point brings next-generation WiFi 7 performance in a sleek, compact design. Built with a single 2.5mGig (multi-gig) uplink, it’s designed for a WiFi-first approach, creating a clean, cable-free desktop where all your devices connect wirelessly.

Simply place it on your desk and power it through a standard outlet for instant access to seamless WiFi 7 speed and reliability.

Compact design. WiFi 7 performance.

The NWA30BE delivers ultra-low latency WiFi 7 in a compact desktop form factor, idealfor desktops, home offices and other small environments.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Powered by a Qualcomm quad-core processor and featuring dual-radio 2x2 MU-MIMO architecture, it delivers speeds of up to 5.1Gbps (BE5100). The built-in 2.5mGig LAN port eliminates wired bottlenecks, ensuring your network can take full advantage of next-gen WiFi 7 performance.

With Nebula cloud management and effortless app-based setup, the NWA30BE delivers fast, reliable WiFi designed to cover your desktop workspace – keeping all your devices connected wirelessly.

Expand WiFi to your desk without the complexity.
The NWA30BE features Smart Mesh with MLO (Multi-Link Operation) support, enabling automatic, dynamic wireless links that eliminate the need for complex cabling during deployment.

By using dual-radio backhaul instead of the single-radio approach seen in traditional mesh networks, it delivers significantly higher bandwidth, improved resistance to interference, and ultra-low latency – ensuring seamless, high-performance connectivity, perfect for extending WiFi coverage from other Zyxel Smart Mesh- enabled devices.

Click. Tap. Done.
Get up and running in minutes with the Nebula mobile app. With just a few simple clicks, our user-friendly step-by-step wizard walks you through the entire installation process, no technical expertise required.

Once connected, the intuitive interface gives you complete control, making it easy to adjust settings, monitor performance and manage your network anytime, anywhere.

Powerful, effortless and scalable connectivity.
With Nebula, you can manage your entire network – wireless, switching, security and LTE/5G – through a single centralized cloud platform. Deploy and configure devices quickly and remotely, without the need for extra hardware controllers or software.

Whether you're managing one site or many, Nebula delivers real-time monitoring, instant alerts and complete network visibility – anytime, anywhere.

Scale confidently, simplify operations and stay secure – all through one intuitive platform.
