HPE Aruba Networking CX 6300M 32p SmtRt 5G CL8 8p SFP+ 10G LRM 2p SFP56 50G 2p SFP28 25G MACsec Sw

Model: S4P42A

Manufacturer: HEWLETT PACKARD ENTERPRISE

EAN: 190017744391

Product Code: 1058183

R404,386

The HPE Aruba Networking CX 6300M 32p Smart Rate 5G CL8 is designed to provide high-performance networking for contemporary infrastructures. With 32 ports supporting various speeds up to 50 Gbit, this switch ensures reliable connectivity and efficient data transfer across networks. The switch is stackable with the capability of managing up to ten units combined for scalability, allowing for easy expansion as network demands grow. Equipped with management protocols such as SNMP, RMON, and CLI, this model offers comprehensive remote monitoring and management. It also features Power over Ethernet Class 8, making it suitable for powering devices effectively, while the 90 W PoE budget allows for versatile use cases. Its support for features like Quality of Service
