

HP EliteBook 8 G1a 14 NGAI AMD Ryzen AI 7 350 14inch WUXGA 32GB 512GB W11P 3YW

Model: CW9P3ET#ABB

Manufacturer: HP INC.

Product Code: 1058184

R73,458

The HP EliteBook 8 G1a Next Gen Notebook is designed for professionals who need a balance of performance, security, and portability for everyday work. It supports responsive multitasking and AI-augmented workflows with an AMD Ryzen AI 7 350 processor, integrated AMD Radeon graphics, and an on-chip neural processor that delivers up to 66 TOPS, while fast NVMe SSD storage helps apps and files open quickly. The 14-inch WUXGA IPS LED display offers clear Full HD+ viewing, and the 5 MP IR webcam with dual-array microphones and dual stereo speakers with discrete amplifiers and Poly Studio support clearer collaboration during calls. Security and manageability are emphasized through features such as a TPM 2.0 security chip, HP Tamper Lock, HP DriveLock, hardware attestations, and a suite of compliance certifications, while MIL-STD-810H testing and a spill-resistant, backlit keyboard help maintain productivity on the move. Multiple modern ports including
