

TELTONIKA NETWORKS TSF000 Low Profile POE+ Switch

Model: TSF000000000

Manufacturer: TELTONIKA NETWORKS

EAN: 4779051846979

Product Code: 1058444

R1,461

The Teltonika TSF000 is a versatile switch designed for robust performance in demanding environments. With an operational temperature range from -40°C to 75°C and a humidity tolerance of 5% to 95%, it's suited for a variety of applications. This switch features a packet buffer size of 128 KB and supports 10 Gbps non-blocking bandwidth, ensuring efficient data transmission even under high traffic conditions. Its DIN rail mountable design complements any setup while providing stability and ease of installation.

Equipped with five 10/100 Base-T ports, four of which are Power over Ethernet (PoE+) capable with a budget of 120 W, the TSF000 simplifies power management for connected devices. The RJ-45 connectors ensure reliable connectivity, and the device is protected against over-voltage, reverse polarity, and surges. With compliance to multiple standards such as IEEE 802.3 and IP30, users can be confident in the reliable operation and compatibility of the Teltonika TSF000 in various network infrastructures.
