A mode for every mood

Weighing 1.16kg, the Yoga Duet 7 is light and versatile enough to be used anywhere. Its adjustable kickstand helps you work, sketch, or take notes more comfortably and efficiently, in laptop mode or at lower angles. It also has a detachable Bluetooth® keyboard for a more relaxed, alternative typing and viewing experience.

Performance you can count on

The Yoga Duet 7 gives you advanced mobile performance, one that's intuitive and personalized—yet doesn't compromise on productivity. How? With 10th Gen Intel® Core™ processors and AI features that dynamically adjust power to optimize battery life, up to 10.8 on a single charge*. There are also USB-C ports for faster charging. *All battery life claims are approximate and based on two methods of testing: MobileMark® 2014 battery-life benchmark and continuous 1080p video playback on the latest update of Windows 10 (with 150 nits brightness and default volume level). Actual battery life will vary and depends on many factors such as product configuration and usage, software use, wireless functionality, power management settings, and screen brightness. The maximum capacity of the battery will decrease with time and use.

Stay connected anywhere

Connect to the internet three times faster than standard WiFi with Intel® WiFi 6. And Modern Standby, you’ll receive notifications even when your Yoga Duet 7 is in sleep mode.

Look, no hands!

With its smart features, your Yoga Duet 7 will save you time and effort. Log in with just a smile and log out automatically when you walk away. Receive notifications if someone’s reading over your shoulder, ensuring your work stays private. You can even speak to your digital voice assistant, Alexa, above the lock-screen.

Home-theatre entertainment to go

Savor crystal clear visuals anywhere, thanks to a 13" 2K touchscreen display featuring 100% sRGB colour accuracy, 400 nits brightness and wide-angle viewing. Together with Dolby Audio™ speakers and a smart amp to enhance sound, your Yoga Duet 7 will be your go-to on-the-go entertainment device.

Let your creativity flow

Inspiration can strike at any time. Press the innovative Lenovo E-Colour Pen (optional)* to something that catches your eye, say a flower or pattern, then seamlessly transfer that object’s colour into creative programs like Photoshop and InDesign.* The Yoga Duet 7 is also compatible with the Lenovo Digital Pen.
