The 23.8-inch EV2400R monitor is specially designed for energy-efficient use in everyday office life and meets both important sustainability requirements and basic workplace needs. It combines the popular 16:9 screen format with advanced energysaving features and typically consumes only 8 watts, which reduces the CO2 footprint and energy costs. Its special Eco Mode activates the Auto EcoView and EcoView Optimizer functions to automatically adjust screen brightness to ambient light and image content, reducing power consumption by up to 60%. The EV2400R is also certified to global sustainability standards and its housing is made from over 50% recycled plastic. With up to 350 cd/m² brightness and 1500:1 contrast, the monitor offers clear image reproduction. It also features eye-friendly features such as anti-glare and flicker-free display. With a 100 Hz refresh rate,
