Product Code: 1059177

R17,786

GEEKOM IT13 Mini PC Intel® Core i5-13600H 16GB 1TB + Win 11 Pro

The GEEKOM IT13 with an Intel® Core i5-13600H processor is ideal for those looking for a powerful yet compact computer for work and entertainment. The device runs smoothly even under heavy load, and the IceBlast cooling system ensures quiet and efficient operation in a variety of conditions. With a wide range of ports, including USB4, HDMI, and 2.5G Ethernet, the computer is ready to connect all the devices and accessories you need. Both the fast 2.5Gbps Ethernet port and WiFi 6E guarantee stable internet access — without delays, even when streaming 4K video or working remotely in the cloud. Plus, the Mini PC comes with Windows 11 Pro pre-installed, so you can use it right out of the box.

Power you can count on

At the heart of this model is a 10-core Intel® Core i5-13600H processor, which combines 6 performance cores and 4 energy-efficient cores. Combined with 16 GB of DDR4 RAM and a fast 1TB PCIe Gen4 SSD, the mini PC runs smoothly even under heavy load.

Integrated Intel Iris Xe graphics

The built-in Intel Iris Xe graphics chip allows for comfortable multimedia work, including movie playback at resolutions up to 8K. The hardware also handles simpler games and graphics programs well, and when connected to multiple monitors, even more advanced video editing. Two HDMI ports and two USB4 ports allow for convenient expansion of your workstation.

Functional and compact

The device's casing is made of aluminum, which increases its durability and gives it an aesthetic appearance. Its small dimensions mean that the IT13 will fit even on a very limited desk space. Despite its compact size, it offers a wide range of connectors: four USB-A ports, two USB4 ports, two HDMI ports, an SD card reader, 2.5Gbps Ethernet, and a 3.5 mm headphone jack.

Cooling that makes a difference

The IceBlast cooling system effectively dissipates heat, ensuring quiet and stable operation of the device around the clock. This allows the computer to cope with a variety of conditions — even at temperatures ranging from -20°C to 55°C.

Manufacturer	Geekom
Model	IT13
Processor	Intel® Core™ i5-13600H
Cores/threads	10 cores (6 Performance + 4 Efficiency) / 16 threads
Cache	24 MB L3 cache (Intel® Smart Cache)
Integrated graphics	Intel® Iris Xe Graphics (iGPU)
