Lenovo ThinkPad E16 Gen 3 22AY is a 16-inch business notebook designed for productive work, reliable security, and everyday mobility. The 16-inch 16:10 IPS display with anti-glare coating and a high screen-to-body ratio helps present more content on screen for spreadsheets, documents, and web workflows, while Intel Arc Graphics 130V supports smooth visuals for multitasking. The hybrid FHD/IR webcam with privacy shutter and Windows Hello, dual-array microphones, stereo speakers with Harman audio technology and Dolby Atmos, and a backlit keyboard with numeric keypad help streamline meetings and collaboration.

Performance-oriented components include an Intel Core Ultra 5 processor with an integrated Neural Processor Unit for efficient AI-assisted workloads, fast LPDDR5X memory, and a PCIe 4.0 NVMe SSD with TCG Opal encryption for responsive performance and secure storage. Robust connectivity options such as USB4/Thunderbolt 4 with DisplayPort 2.1 and USB Power Delivery, HDMI with 4K support, Gigabit Ethernet, and multiple USB ports provide flexible docking and peripheral options, while an aluminum chassis, MIL-STD-810H testing, a discrete TPM 2.0 security chip, and a fingerprint reader contribute to durability and device protection.
